

THE PORTABLE GRAIN & SEEDS MOISTURE METER WITH BUILT-IN GRINDER SUPERPRO

Sturdy moisture meter with a unique built-in grinder to have reliable results

The Superpro Moisture Meter is a new generation of digital moisture meters which gives consistent test results. The grain and seeds are grounded and compressed in one operation which together with automatic temperature compensation leads to more reliable results.

Key features and benefits

- Easy to use and operate
- Automatic temperature compensation & calculation of average value
- Adjustment of calibration
- Combined grinding and compression of the sample
- Backlight display for easy reading
- Digital readout with accuracy to one decimal point
- It comes in a shockproof carrying case, so you can have it always and everywhere with you
- Two-year warranty

You need the Superpro:

- to determine when to begin harvesting
- for regular moisture measurement during the drying process and storage to avoid deterioration of quality or spoilage.

FUNCTIONS

Superpro – Moisture meter for grains and seeds

Easy to use and handle

Turn on the tester by pressing the ON/TEST button. Use the arrow keys to select grain type.

Pour the sample into the grinder. The sample size is measured out in the built-in measuring cup.

Grind the sample.

Press the ON/TEST button and read the moisture content directly from the display.

TECHNICAL SPECIFICATIONS

Measuring range (Moisture): 5 to 50% depending on crop type

Operating range (Temperature): 0 to 50 °C

Resolution: 0.1% moisture

Temperature compensation: Automatic

Weight including carrying case: 2 kg

Dimension: 13x21x8 cm

Battery: 9 V Alkaline

Display: 2 line LCD with backlight

Accuracy: Better than +/- 0.25% In normal moisture range by using average and calibration adjustments

AgroLog App

With the AgroLog App you are always in control of your products and storage, you get real-time insights and a historical overview of your crops.

There is a complete overview of the data collected from all devices at different times. All this information is available in the app and accessible through your smartphone.
